Dedication Page

The 1982-83 Journalism class would like to show our appreciation and our gratitude by dedicating the 1983 Charger Annual to a very special lady, Mrs. Maxine Hughes.

Mrs. Hughes started teaching Title I Reading in 1965, but she had been a member of the school board before then. In 1966 she became a full-time teacher, and in 1971 she began working on the annual.

Max is a very good teacher, but above all, she is a friend. We thank her greatly for all the care and hard work she has put into our Journalism class.

What Does it Cost to Live in the U.S. ?

The facts are all evident. In the 1980's the people of the United States are living in an ever increasing state of inflation. Sounds pretty grim doesn't it? However, this condition is not as bad as it seems. The cost of gasoline, a major U.S. commodity, has decreased this year. And, even though other costs, such as those of colleges, seem to have risen unbearably, think of all the other less fortunate countries. Those countries where there may be no such thing as a college or university, much less an adequate high school. There are even places where cars and blue jeans aren't even available for most people.

Surely the United States is a great land of opportunity and freedom, a place where one can get almost anything one's heart desires.

C.C.H.S. students, while knowing freedom itself is priceless, have tried to answer this question for the year of 1983 — "What does it cost to live in the U.S.?"

1982-83
Hey, What's Been Happening?

The school year of 1982-1983 has held many surprises for Americans throughout the country. There has been great diversity between events which can be considered beneficial, and those which are not considered so. But do the good events of the year actually outweigh the bad? The following comparisons may help us to answer this question.

Bad Events - Vs. - Good Events

On September 1, 1982, 10.8 million Americans were out of work.

However, on October 14, 1982, President Reagan announced that "despite a pounding hangover that has left 11 million Americans unemployed, the nation is recovery-bound and the world knows it".

On October 18, 1982, Bess Truman, the childhood sweetheart, wife, and closest confidante of President Harry S. Truman died at the age of 97.

On November 11, 1982, the space shuttle Columbia roared away from it's launch pad at Cape Canaveral, Florida at 5:20 a.m. into a 17,400 mile per hour orbit, 184 miles above the Earth.

On November 11, 1982, the Colorado State Fair Board stated that the fair may be cancelled or "scaled down" unless a request for about $300,000.00 in special funding is approved by the State Legislature.

However, by November 30, 1982, state officials were proceeding on the premise that there would by some supplemental funding to continue Colorado State Fair operations in 1983.

On October 18, 1982, a rash of poisonings and threatened poisonings spread across the nation as Florida found suspicious eyedrops and acid mouthwash, Ohio reported a poison milk scare, and Iowa charged a couple with a food poisoning extortion attempt.

Ironically, on November 2, 1982, grocery prices took a slight slide with scattered savings on meat, eggs, and sugar.

1982 was the year of the rising of the Punk Rock Craze.

Fortunately, 1982 was also the year of beginnings for the Apple computer system.

On October 22, 1982, the Denver Mint punched out it's last copper penny and started producing the new copper-coated zinc pennies.

The Internal Revenue Service, however, is vastly expanding it's intelligence and undercover activities and has created a special intelligence unit with unprecedented powers, which consists of a giant new computer system.

Unfortunately, another bottle of contaminated Extra-Strength Tylenol was found among bottles pulled from a Chicago store shelf. This after seven people in Chicago died from taking the cyanide laced capsules.

However, it was shortly thereafter said that the population of the U.S. will probably peak at 309 million in the year 2050, with a sharply higher share of elderly persons.

On February 19, 1983, President Reagan announced that Americans have an "overriding moral obligation" to support his military budget plans.

Bad news is that Congress does not support an increasing military buildup.

On February 20, 1983, the space shuttle Challenger was grounded on it's Florida launch pad, weeks after it was to have soared into space, because a runaway lathe dented a rocket engine 14 months before.

On April 4, 1983, the space shuttle Challenger blasted-off. Finally!!

On March 23, 1983, Dr. Clark died of pneumonia.

In 1982, Barney Clark underwent the first artificial heart transplant, a tremendous step for medical science.

On March 19, 1983, 3,000 people in Pittsburgh applied for a measly 170 city clean-up jobs.

However, inflation, that seemingly relentless dragonlike force that has nettled Presidents, Congress, and the public for more than 10 years, was beaten back so badly in February that prices actually reclined.

On April 5, 1983, United States Interior Secretary, James Watt, announced that the Beach Boys could not play at the Fourth of July celebration to be held this year in Washington D.C.

FACE to James Watt!! The Beach Boys will play anyway!!

On March 12, 1983, President Reagan charged the Department of Education with diminishing the basic elements of American education with foolishness, rather than good academics.

On April 9, 1983, our highly educated space shuttle astronauts, praised for the "greatest show on or off Earth", completed final experiments and packed up for Challenger's first landing, which was successful.

These, of course, are only small comparisons of the recent years' events. However, in looking at these, we can see that we are indeed an advancing rather than declining country. And, despite hard times, a happy nation. One that is prosperous and, most importantly, free. These things are what makes our world go around, and that is evident by the smiling and happy faces of C.C.H.S. students!!!

JR-SR PROM 1983

PROM

The theme for the 1983 Jr-Sr Prom was "Stairway to Heaven". The Juniors did a super job decorating the gym to the theme, complete with an angel-hair-covered staircase in the middle of the dance floor, and lots of stars. The music was provided by KAOS, a group from Pueblo. Kentucky Fried Chicken Catering provided the food for the banquet with a little help from a few Junior parents, who donated cakes. The Juniors had fun preparing the Prom in honor of the Seniors and hope they enjoyed all the work that went into their Jr.-Sr. Prom.

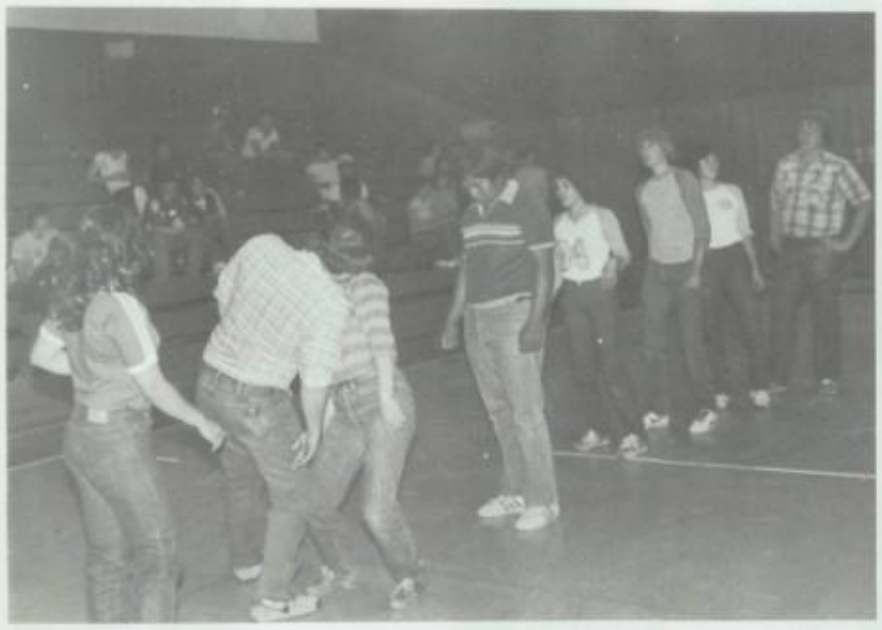
SUPER CLASS

Kelly and Chelle-Mess Charger is right!

"Corey and Frankie show their style in the "Football toss."



Jim passes the orange to Shelley while Cris tries to figure it out, and Nelson looks on impatiently. Above: Carla hurries in the "Wagon race".

The tradition of the "Super Class" competition came around again this year, showing the Sophomore class as the victors, with a score of 38 points. The Senior class placed second with 36 points, Freshman came in third with 33 points, while the Junior class placed last with 32 points.

Above left: Russell, Tina, Jaime, Kelly, Chelle.
Right: This was the winning class?!

Phillip at the "Basketball throw".

The classes competed in many different and "interesting" events like; "Mess Charger", a beauty contest where the guy dresses like the girl, and vice-versa; the famous "Tug-o-war"; the "Orange pass", where a girl has an orange tucked up under her chin, and without the use of hands, attempts to pass the orange to the guy standing behind her, then he passes it to the girl behind him, and so on; the embarrassing "Cheerleaders", where the guys dress up as cheerleaders, and hopefully cheer their class on to victory.

Also, there was the "Four-legged race", which was something like the normal "Three-legged race", the exception being the four-legger involves three people. The "Water balloon toss" was one of the more difficult events. A pair from each class is lined up facing each other. One tosses the balloon to the other, and with each completed toss, each person takes a few steps back, increasing the distance between them.

Mr. Bentley studies the "Mess Charger" candidates.

There was also the "Wheelbarrow race", the "Football toss", the "Basketball throw", the "Tricycle race", and the "Pyramid race", where the contestants are stacked one-on-two-on-three, and crawl to the finish line.

This is the "Pyramid race"!

Gods Masterpiece

From graceful lilies pure and white,
God fashioned lovely skin;
Forget-me-nots He chose for eyes,
Then formed your baby chin.
He took a tulip bright and red,
'Twas one that did not fade;
A softer, sweeter little mouth
Before was never made.
Another flower next he used,
A rosebud pink and fair;
Touched it to your dimpled cheeks
And made it blossom there.
Then with his magic fingers, picked
Two morning glories white;
Curled and shaped your little ears,
Soon they were fastened tight.
That crowning bit of golden down
Will soon become your hair;
He gathered pollen from the flowers
And sprinkled it with care.
For dainty little fingers dear
And precious, tiny toes,
He used the slender daisy frills;
A snow drop made your nose.
This world and all within it,
He created here for man;
But Baby was "Gods Masterpiece"
Since time and life began.

The Baby

Another little wave
Upon the sea of life.
Another soul to save
Amid its toils and strife.

Two more little feet
To walk the dusty road.
To choose where two paths meet
The narrow, or the broad.

Two more little hands
To work for good or ill.
Two more little eyes
Another little will.

Another heart to love
Receiving love again.
And so the baby came
A thing of joy and gain.

Old Gold Mud Pies

Down in the little back garden
Under a sunny sky,
We made mud pies together —
My little sweetheart and I.
Stained was the little pink apron,
Muddy the jacket blue,
As we stirred and mixed and lasted
Out in the sun and dew.

Why do I dream of that garden,
I who am old and wise?
Why am I longing, longing,
For one of those old mud pies?
Oh, for that little pink apron!
Oh, for the jacket blue!
For the blessed faith of childhood —
When make-believers are true!!
